

DRILLING MANUAL

100 Oil & Gas Companies List

www.DrillingManual.Com

OIL AND GAS COMPANIES- A

[Abraxas Petroleum Corp.](#)

Abraxas Petroleum Corporation is an independent natural gas and crude oil exploitation and production company based in San Antonio, Texas. Robert L.G. Watson, the company's President and CEO, founded Abraxas in 1977 and took the company public in 1991. Today, the company concentrates on developing its existing asset base while acquiring leases that fit strategically within its current portfolio. Abraxas targets conventional reservoirs, as well as emerging resource plays, in its primary operating areas in the Rocky Mountain, Mid-Continent and Permian Basin / Texas Gulf Coast Basin.

[Abu Dhabi National Oil Co. \(ADNOC\)](#)

Abu Dhabi National Oil Company (ADNOC) was established in 1971, to operate in all areas of the oil and gas industry and since then has steadily broadened its activity establishing companies and subsidiaries and creating an integrated oil and gas industry in Abu Dhabi. Today, the company manages and oversees oil production of more than 2.7 million barrels a day which ranks it among the top ten oil and gas companies in the world.

[Aladdin Middle East Ltd](#)

Aladdin Middle East Ltd. ("AME") is an independent American oil and gas exploration and production company organized in 1961 for oil exploration in Turkey. Outside the main office in Wichita, Kansas, company's operational headquarters is located in Ankara, Turkey, as well as field offices, where AME's production leases are being operated. AME also has the branch office in Cairo Free Zone (Egypt) to facilitate drilling contracting.

[Alpine Drilling](#)

Alpine Drilling is a Wangaratta based family owned and operated drilling company with high levels of experience in the industry. We have state of the art equipment and practice quality drilling and construction methods.

[Altima Resources Ltd.](#)

Altima Resources Ltd Altima Resources Ltd is a junior energy company engaged in the exploration and development of petroleum and natural gas in Western Canada. It is the Company's intent to focus on new long life petroleum and natural gas prospects in select core areas and grow its reserve base through drilling.

[Armstrong Energy Corp.](#)

Armstrong Energy Corporation is a privately held oil and gas exploration and production company headquartered in Roswell, New Mexico. Armstrong Energy Corporation is also the general partner of Slash Exploration Limited Partnership. Slash Exploration Limited Partnership was formed in 2006 in order to make a large and successful purchase of oil and gas properties. Slash Exploration Limited Partnership continues to own the majority of the assets, of which Armstrong Energy Corporation is the operator. The company

operates nearly 100 properties, owns a non-operated interest in more than 400 other properties, and holds more than 80,000 acres of leasehold interests.

[Anadarko Petroleum Corporation](#)

Among the largest independent oil and natural gas exploration and production companies in the world, with approximately 2.3 billion barrels of oil equivalent (BBOE) of proved reserves at year-end 2009.

Anadarko's portfolio of assets encompasses premier positions in nearly a dozen major U.S. onshore natural gas resource plays. The company also is the largest independent Deepwater producer in the Gulf of Mexico, and has production and/or exploration in Alaska, Algeria, Brazil, China, Indonesia, Mozambique and West Africa.

[Antero Resources](#)

Antero Resources is an independent exploration and production (E&P) company engaged in the exploitation, development and acquisition of natural gas, NGLs and oil properties located in the Appalachia Basin.

Headquartered in Denver, Colorado, we are focused on creating value through the development of our large portfolio of repeatable, low cost, liquids-rich drilling opportunities in two of the premier North American shale plays. We hold over 484,000 net acres in the southwestern core of the Marcellus Shale and over 137,000 net acres in the core of the Utica Shale. We welcome you to discover our impressive assets, and drilling inventory, by exploring our website.

[Apache Corp.](#)

Apache Corporation is an independent energy company that explores for, develops and produces natural gas, crude oil and natural gas liquids. Our mission is to grow a profitable company for the long-term benefit of our shareholders by building a portfolio of core areas which provide long-term growth opportunities.

[Approach Resources Inc.](#)

Our management team has extensive experience drilling for oil and natural gas in the Permian Basin. They have established a track record that demonstrates financial discipline, innovation and exploratory success.

The core strategy behind our success is listed below:

[ARC Resources Limited](#)

ARC Energy Trust has operated as a sound and conservative oil and gas company, structured as a trust, since 1996. An industry leader, a socially responsible operator and a key contributor to the communities in which we work, ARC has a proven track record of performance.

[Aspen leaf Energy](#)

is a private oil and gas exploration and production company that is pursuing an acquisition and exploitation strategy in western Canada. The company is focused on light oil and liquids-rich gas opportunities and is led by a team of seasoned industry professionals with extensive acquisition and operations experience.

[Artex Oil Company](#)

Artex Oil Company has become one of the largest oil and gas producers in Ohio. Today we pay out millions of dollars per year in royalties to landowners. This would be impossible without the cooperation of numerous landowners granting thousands of oil and gas leases. Artex invests significant funds to explore on these leases using state of the art seismic and drilling techniques. These techniques greatly increase our success as well as the royalties paid to the landowners. Artex is currently responsible for the creation and continuation of at least 500 jobs in our area of operations.

OIL AND GAS COMPANIES- B

[Bankers Petroleum](#)

Bankers Petroleum Ltd. is a Canadian-based oil and gas exploration and production company focused on developing large oil and gas reserves in Albania. The Company operates and has the rights to develop the Patos-Marinza heavy oil field and has a 100% interest in the Kenova oil field

[Barnwell of Canada, Ltd.](#)

Barnwell engages in oil and natural gas exploration, development, production and sales in Canada.

[Baited Energy Ltd.](#)

Baited Energy Trust is a Calgary, Alberta based conventional oil and gas trust engaged in the acquisition, development and production of oil and natural gas in the Western Canadian Sedimentary Basin. The trust also has an emerging presence in the United States. With changes to trust taxation laws in Canada set to take effect January 1, 2011, Bayet's current plan is to convert to a corporation, executing a growth-and-income model by the end of 2010. Baited is committed to maintaining its production and asset base through internal property development and delivering consistent returns to its unitholders.

[Storm Resources Ltd.](#)

Storm Resources Ltd. is an oil and gas exploration and development company incorporated in the province of Alberta, Canada on June 8, 2010 and is listed on the Toronto Stock Exchange under the symbol "SRX". This is the fourth iteration of 'Storm' since November 1998 with the same management team involved in the growth and sale of three previous 'Storm' companies. The cornerstone of the business is capital discipline with strict adherence to production and cash flow growth. Currently the Company operates primarily in northeast British Columbia and has a focused asset base with large land positions in resource plays at Unbeach/Nig/Fireweed and the Horn River Basin, both of which have multi-year drilling upside. Near term, Storm's efforts are focused on advancing development of the liquids-rich Montney natural gas resource on 161 net sections of land at Unbeach, Nig and Fireweed.

[Bellatrix Exploration](#)

Bellatrix Exploration Ltd is a Calgary, Alberta-based intermediate energy producer focused on exploration and development of light oil and liquids-rich natural gas opportunities in some of the most exciting plays in the Western Canada Sedimentary Basin.

[Berry Petroleum Co.](#)

Berry's staff is experienced and dedicated. The asset teams have extensive technical knowledge built around exploration, drilling and production activity, and have experience with industry-centered technologies, including 3D seismic, horizontal/directional drilling and hydraulic fracturing. The areas of focus include field development and redevelopment, thermal enhanced oil recovery (EOR), and exploration and appraisal activities. Berry is dedicated to looking for, and finding, ways to produce its assets more effectively, efficiently and safely.

[BHP](#)

We are a leading global resources company. Our purpose is to create long-term shareholder value through the discovery, acquisition, development and marketing of natural resources.

[Birch cliff Energy Ltd.](#)

Birch cliff Energy Ltd. is an intermediate oil and gas exploration, development and production company based in Calgary, Alberta.

[Black Diamond Energy](#)

Black Diamond Energy, Inc. will be an industry leader in the energy syndication market. We will design drilling programs that satisfy landowner and environmental issues. We will make it our focus to provide our partners and landowners with full and timely reporting. This will provide Black Diamond Energy the ability to be an effective independent operator into the future.

[Black Hills Corp.](#)

We are a diversified energy company operating principally in the United States with two major business groups – Utilities and Non-regulated Energy.

[Bluestone Natural Resources](#)

Headquartered in Tulsa, Okla., Bluestone Natural Resources II is a private, upstream oil and natural gas acquisition and development company. Starting with property analysis, our efficiency and honesty in evaluating acquisitions and building relationships with landowners sets us apart.

[Bonavista Energy Trust](#)

We are an intermediate, dividend paying Canadian oil and natural gas producer headquartered in Calgary, Alberta. Since 1997, we have been focused on the creation of long-term value through a balanced approach of production growth and dividend income. Although that's just part of the story. We pride ourselves on being one of the most efficient producers in our industry, the result of bringing together excellent people who consistently find a better way of doing things. Our experienced leadership team has a proven track record of managing our high quality assets. This is what differentiates us; this is what makes us All together better.

[Fonterra Oil & Gas Ltd.](#)

Fonterra Energy Corp. is a high-yield, dividend paying oil and gas company headquartered in Calgary, Alberta, Canada with a proven history of creating growth and long-term value for shareholders on a per share basis. Fonterra has paid a monthly dividend (distribution) since inception and targets paying approximately

50 to 65 percent of funds flow to investors. Fonterra's successful performance is due to its experienced management team, conservative capital structure and sustainable pace of development.

[BP](#)

The energy we produce serves to power economic growth and lift people out of poverty. The way heat, light and mobility are delivered is changing. We aim to anchor our business in these changing patterns of demand, rather than in the quest for supply. We have a real contribution to make to the world's ambition of a low carbon future

[Bridge Energy AS](#)

Bridge Energy var et narks avenging Olszewski some blew runagate tailback I 2005. Groenewegen var Love Tor anger, Alfred Klemperer, Seven Johansen go Einar Brandlin. Farkleberries Kunne vise tile 20 airs rearing far narks sokol I 2005 da seascape var et factor go den competence leadless sat pay var held unit. Bridge Energy blew kjøpt pop av Spike Exploration hasten 2013, men hade da end unrolling listed å vise tile nor det koi tile licenser, go gas natal fun.

[Brigham Resources](#)

Brigham Resources, LLC is a privately held oil and gas company headquartered in Austin, Texas. Founded by Bud Brigham, Gene Shepherd and former management team members from Brigham Exploration Company following the company's sale to Statoil, Brigham Resources is focused on using advanced technologies to identify and develop unconventional liquids rich resource plays.

OIL AND GAS COMPANIES- C

[Cabot Oil & Gas Corp.](#)

Cabot Oil & Gas Corporation is an independent oil and gas company engaged in the development, exploitation and exploration of oil and gas properties exclusively in the continental United States. As of December 31, 2017 the Company had approximately 9.7 Tcfg of total proved reserves. Cabot continues to refine its operating focus, narrowing its natural gas development effort to the Marcellus Shale in northeast Pennsylvania.

[Cairn Energy Plc](#)

Cairn has explored, discovered, developed and produced oil and gas in a variety of locations throughout the world with more than 20 years' experience as operator and partner in all stages of the oil and gas lifecycle. Cairn is listed on the London Stock Exchange with its headquarters in Edinburgh and offices in London, Norway, Senegal and Mexico.

[Calon Petroleum Co.](#)

Founded in 1950, we are an independent oil and natural gas company focused on the acquisition, exploration and development of high-quality assets in the heart of the Permian Basin. Our mission is to build trust, create value and drive sustainable growth responsibly for our investors, our employees and the communities in which we operate.

[Cancel Energy](#)

Cancel Energy Ltd. is a Canadian-based international junior energy company with production and exploration operations located in South America. The Corporation's operations are focused in Colombia, Brazil, and Guyana, with offices located in Calgary, Bogota and Rio de Janeiro. The mandate of the Corporation is to build a stable operated production platform, and leverage operational expertise to grow through exploration in each of its focus countries. To date, the Corporation has been successful in acquiring producing assets with low risk development upside in Colombia and Brazil, and building a significant portfolio of opportunities that exposes Cancel to a wide range of exploration prospectively. Cancel is a qualified operator in both Colombia and Brazil, which enables the Corporation to participate as operator in regularly scheduled exploration and marginal field bid rounds, and directly negotiate exploration contracts with government entities.

[Canadian Natural Resources Corp.](#)

We are an effective and efficient operator with a diversified portfolio of assets in North America, the UK North Sea and Offshore Africa, which enables us to generate significant value, even in challenging economic environments. We continually strive for safe, effective, efficient and environmentally responsible operations while executing economic development of our diverse asset base.

[Canadian Spirit](#)

Canadian Spirit Resources Inc., ("CSRI") is a Canadian public company focused on the exploration and production of natural gas in the Montney Formation of Northeast British Columbia. The Company's significant land base and established resource at Farrell Creek are strategically located along the pipeline infrastructure that will deliver natural gas to the proposed LNG facilities on the West Coast of British Columbia.

[Carrizo Oil & Gas](#)

Our current operations are principally focused in proven, producing oil and gas shales in the Eagle Ford Shale in South Texas and the Delaware Basin in West Texas. We have grown our production and reserves over the last 10+ years by focusing on horizontal drilling and completion in unconventional resource plays. We are an industry leader in horizontal development drilling, having drilled and completed more than 900 horizontal wells across multiple resource plays. The highly predictable nature of our drilling inventory provides us with a great deal of precision, as we can quickly and effectively adjust our activity in response to changes in commodity prices.

[Cenovus Energy](#)

We're a Canadian integrated oil and natural gas company headquartered in Calgary. We're committed to maximizing value by responsibly developing our assets in a safe, innovative and efficient way. Our operations include oil sands projects in northern Alberta, which use specialized methods to drill and pump the oil to the surface, and established natural gas and oil production in Alberta and British Columbia. We also have 50 percent ownership in two U.S. refineries.

[Centrica](#)

Our Energy Supply & Services, Distributed Energy & Power and Energy Marketing & Trading businesses are organized into a global customer-facing division, Centrica Business, designed to support the needs of the business customer.

[CEPSA](#)

We are a global, integrated company operating across the entire oil and gas value chain. Mubadala Investment Company Group is our sole shareholder and we have over 90 years of experience. This has helped us to be one of the leading energy companies in Spain and to develop our businesses across five continents

[CGX Energy](#)

CGX is a Canadian oil and gas exploration company that holds three licenses in the Guyana-Suriname Basin, a frontier Basin in South America with a proven hydrocarbon system and highly prospective deep water plays that can be drilled in shallow water. In 2000, the United States Geological Survey (USGS) identified the Guyana-Suriname Basin as having the second highest resource potential among unexplored oil basins in the world and currently estimates mean recoverable oil reserves of over 13.6 billion bbl. and gas reserves of 32 trillion cubic ft. The Company is pursuing the Equatorial Atlantic Margin Play, analogous to West Africa and Brazil. CGX is surrounded by major oil companies including Anadarko, Apache, Exxon, Impex, Cosmos, Murphy, Repsol, Shell, Statoil, Total, and Tullow. With numerous prospects and leads and an independent P50 resource estimate of 2.9 billion boe of potential resources, CGX is positioned for success in this frontier Basin.

[Chaparral Energy](#)

At Chaparral we are never satisfied with the status quo. Like our namesake the fleet-footed roadrunner, our combination of speed, agility and adaptability means we are never happy standing still. Our story is one that embodies innovation, resourcefulness, creativity, financial responsibility and loyalty to the communities in which we operate. Our operations stretch across Oklahoma fast-growing, highly economical STACK Play located primarily across Blaine, Canadian, Garfield, Kingfisher and Major counties. Fueled by our more than 200 talented employees, we have grown from our humble beginnings to a resource base with potential reserves of more than 1 billion barrels of oil equivalent (Boe). While energy companies are nothing new in Oklahoma, Chaparral continues to set ourselves apart through our entrepreneurial spirit and dedication to continuous improvement.

[Chariot Oil & Gas Ltd](#)

Chariot's goal is to create transformational stakeholder value through the discovery of material accumulations of hydrocarbons. This will be achieved with a focused strategy:

[Chesapeake Energy Corp.](#)

Chesapeake's portfolio includes high-quality unconventional oil and natural gas assets in top U.S. onshore plays. Our value-driven strategy focuses on continuously generating capital efficiencies and operating with

low, industry-leading production and G&A costs, along with a disciplined approach to liquidity. The safety of our employees, contractors, the public and the environment is our number one priority and reflects our commitment to conducting our business responsibly and living our core values.

[Chevron Corp.](#)

Our success is driven by our people and their commitment to getting results the right way – by operating responsibly, executing with excellence, applying innovative technologies and capturing new opportunities for profitable growth.

[Cimarex](#)

Cimarex is an exploration and production company with operations in Oklahoma, Texas and New Mexico. The majority of our activity is currently in the Permian Basin and the Anadarko Basin in Western Oklahoma. We pride ourselves on a strong technical team. The cornerstone to the Cimarex approach is detailed pre- and post-drill economic evaluation of after-tax rate of return on invested capital for every well drilled. We continually strive to maximize cash flow from producing properties for reinvestment in drill-bit driven growth opportunities.

[Noble Energy](#)

Noble Energy operates both onshore in top basins across the United States and offshore in Israel, Equatorial Guinea and the Gulf of Mexico. While each area across our diverse portfolio offers unique physical and cultural environments, we bring geoscience, engineering and major project expertise to all of our operations along with a consistent focus on community listening and transparency.

[CNOOC](#)

The Group is the largest producer of offshore crude oil and natural gas in China and one of the largest independent oil and gas exploration and production companies in the world. The Group mainly engages in exploration, development, production and sale of crude oil and natural gas. The Group's core operation areas are Bohai, Western South China Sea, Eastern South China Sea and East China Sea in offshore China. Overseas, the Group has oil and gas assets in Asia, Africa, North America, South America, Oceania and Europe.

[CONSOL Energy](#)

CONSOL Energy, a publicly owned Canonsburg-based producer and exporter of high-BTU bituminous thermal coal, is one of the leading energy companies in the United States of America. We own and operate some of the most productive longwall mining operations in the nation and one of the largest export terminals on the Eastern seaboard. As we like to say, America's energy truly does start here.

[Coastal Energy Company](#)

Coastal Energy Company is an international exploration & production company with principal assets in Thailand and Malaysia, which has been merged with Compamia Española de Petr oleos, S.A.U. ("CEPSA"). Coastal Energy owns and operates 100% of Blocks G5/43 and G5/50 in the Gulf of Thailand as well as

varying interests onshore northeast Thailand including a 13.7% interest in the Phi Harm gas field. In July 2012, Coastal entered into a Small Field Risk Service Contract with PETRONAS for the development and production of petroleum from the Kapil, Banning and Meranti cluster of small fields offshore Peninsular Malaysia, where it intends to hold a 70% equity interest.

[Colt Energy Inc.](#)

Colt Energy, Inc. is engaged in oil and gas exploration, development, and production and gas gathering in eastern Kansas. Colt owns and operates over 150 producing oil and gas leases throughout the region and is one of the largest independent producers in eastern Kansas, with approximately 450 barrels of oil and 2,500 mcf of gas produced daily. Colt currently employs forty full time field, office, and management personnel. We also maintain our own service units including construction, well pulling and well washing crews.

[Comstock Resources](#)

Comstock Resources is based in Frisco, Texas and is engaged in the acquisition, development, production and exploration of oil and natural gas with operations concentrated in Texas and Louisiana. We also recently acquired producing properties in North Dakota and Wyoming from Dallas Cowboy owner Jerry Jones in exchange for common stock. Our common stock is listed and traded on the New York Stock Exchange.

[Concho Resources](#)

Concho is built on a strategy that fits our strengths. We focus on hiring the best people and being a good business partner and member of our community; investing in high-quality assets in the Permian Basin; executing a returns-based capital program; and keeping a strong financial position. The consistency of our strategy enables Concho to deliver strong growth, real value and quality returns year after year.

[Conacher Olgas Ltd.](#)

Our principal asset is a 100 percent interest in approximately 440 million barrels of proved and probable bitumen reserves located on the company's Great Divide oil sands leases near Fort McMurray, Alberta. Conacher is an in situ oil sands developer, producer, and marketer of bitumen. The Company holds a 100% interest in approximately 440 million barrels of proved and probable bitumen reserves and operates two steam-assisted gravity drainage ("SAGD") facilities located on the Company's Great Divide oil sands leases near Fort McMurray, Alberta.

[Conoco Phillips](#)

ConocoPhillips is committed to the efficient and effective exploration and production of oil and natural gas. Producing oil and natural gas and getting them to market takes ingenuity, technology and investment. Our innovative, collaborative efforts yield products that improve quality of life globally while producing economic benefits with far-reaching influence.

[Continental Resources](#)

Continental Resources is an independent oil and natural gas exploration and production company with operations in the Rocky Mountain, Mid-Continent and Gulf Coast regions of the United States. We focus our

exploration activities in large new or developing plays that provide opportunities to acquire large, undeveloped acreage positions for future drilling operations. We have been successful in targeting unconventional resource plays, such as the Bakken Shale in Montana and North Dakota, where horizontal drilling, advanced fracture stimulation and enhanced recovery technologies facilitate the economic production of oil and natural gas reserves.

[Corridor Resources Inc.](#)

Corridor Resources Inc. is a junior resource company engaged in the exploration for petroleum and natural gas onshore in New Brunswick, Prince Edward Island and Québec and offshore in the Gulf of St. Lawrence and the development and production of natural gas in New Brunswick.

[Cox Operating LLC](#)

Cox is an established, privately owned, independent oil and gas company founded by fourth generation oilman, Brad E. Cox. The Company owns and operates assets in the Gulf of Mexico. Since its inception in 2004, the Company has grown through the strategic acquisition and revitalization of mature oil and gas fields located in both the OCS and the shallow waters off the coast of Louisiana.

[Crawford Energy](#)

Crawford Energy is a Houston-based E&P company founded in 1986 by A. Gail Crawford. Our current exploration program is focused in the onshore Texas and Louisiana Gulf Coast areas. Historically, we have worked in North, East, South-Central Texas in addition to the Gulf Coast. As of August 2004, we have successfully completed 30 out of 35 wells drilled by our subsidiary, Crawford Energy Operating Company.

[Crescent Point Energy](#)

Crescent Point Energy is a leading North American oil producer focused on the development of high-return resource plays. Based in Calgary, Alberta, we aim to enhance shareholder returns by cost-effectively growing our significant asset base in the View field Bakken, Shaunavon, Flat Lake, Uinta Basin and East Shale Duvernay plays.

[Crew Energy Inc.](#)

Crew Energy Inc. is a growth-oriented oil and natural gas producer, committed to the pursuit of sustainable per share growth through a balanced mix of financially responsible exploration and development, complemented by strategic acquisitions.

OIL AND GAS COMPANIES- D

[Dana Petroleum plc](#)

Dana Petroleum plc is a leading British independent oil company, committed to maximizing shareholder value through the creation and execution of high impact opportunities.

[Delphi Energy Corp.](#)

Delphi Energy Corp. is a pure play Montney E&P Company with world-class assets and an exceptional track record of success. With a substantial drilling inventory on the largest land base at Bigstone, the Company is positioned for exceptional production and cash flow growth for years to come.

[Devon Energy](#)

Devon Energy Corporation is a leading independent oil and natural gas exploration and production company. Devon's operations are focused onshore in the United States and Canada. The company's portfolio of oil and gas properties provides stable, environmentally responsible production and a platform for future growth. Devon has more than doubled its onshore North American oil production since 2011. Today the company produces approximately 250,000 barrels a day and has a deep inventory of development opportunities to deliver future oil growth. Devon also produces about 1.2 billion cubic feet of natural gas a day and about 100,000 barrels of natural gas liquids per day.

[Diamondback Energy](#)

Diamondback is an independent oil and natural gas company headquartered in Midland, Texas focused on the acquisition, development, exploration and exploitation of unconventional, onshore oil and natural gas reserves in the Permian Basin in West Texas. Diamondback's activities are primarily focused on the horizontal exploitation of multiple intervals within the Wolf camp, Sprayberry, Clearfork, Bone Spring and Cline formations.

OIL AND GAS COMPANIES- E

[Frontera Resources](#)

Specifically, Frontera's strategy is to identify opportunities and operate in emerging markets in Eastern Europe around the Black Sea. Being among the first to enter these markets is a primary objective in order to capture the opportunity. Within this strategy, Frontera's current focus is targeted on exploiting a 'Greater Black Sea' initiative, regionally building from its core operations in the country of Georgia.

OIL AND GAS COMPANIES- G

[Gas Co. Energy](#)

Gas Co. Energy is a consulting group that specializes in mineral rights management for oil and gas properties. If you lease your mineral rights, you know that it can be difficult to keep track of your royalty payments. Ensuring you're getting paid according to the contracts you signed is tricky, especially if you own minerals rights across multiple drilling sites or pieces of land. We help you manage your royalty income to make sure you get what you're due. We'll help you keep of your contracts and payments stubs, then send you monthly streamlined reporting that helps you see what each well is producing, all for a small monthly fee. Managing your mineral rights has never been easier or more transparent. To get started, give us a call or fill out our contact form to have a representative get in touch!

[Gaastra Exploration Inc.](#)

Gaastra Exploration Inc. is a pure play Mid-Continent independent energy company engaged in the exploration, development and production of oil, condensate, natural gas and NGLs. Gaastra's principal business activities include the identification, acquisition, and subsequent exploration and development of oil and natural gas properties with an emphasis on unconventional reserves, such as shale resource plays. Gaastra holds a concentrated acreage position in the normally pressured oil window of the STACK Play, an area of central Oklahoma which is home to multiple oil and natural gas-rich reservoirs including the Oswego limestone, Meramec and Osage bench formations within the Mississippi Lime, the Woodford shale and Hinton limestone formations.

[Gazprom](#)

Gazprom is a global energy company focused on geological exploration, production, transportation, storage, processing and sales of gas, gas condensate and oil, sales of gas as a vehicle fuel, as well as generation and marketing of heat and electric power. Gazprom views its mission as ensuring a reliable, efficient and balanced supply of natural gas, other energy resources and their derivatives to consumers. Gazprom's strategic goal is to establish itself as a leader among global energy companies by diversifying sales markets, ensuring reliable supplies, improving operating efficiency and fulfilling its scientific and technical potential.

[Gene Energy](#)

Gene Energy is the largest holder of reserves and resources in the Kurdistan Region of Iraq, where we have been operating for over a decade, and one of the largest independent oil producers on the London Stock Exchange. Gene Energy's strength is based on our low-cost assets – our Taq Taq and Tawkee PSC contain combined 2P reserves of over 550 million bbl.. Net production in 2018 averaged 33,700 bop. Production from these assets is among the lowest cost in the industry, and generates material free cash flow. We have a Board and management team comprised of individuals with experience at leading international energy businesses, and people that have a deep understanding of local and regional politics with strong longstanding relationships with key stakeholders. With a focus on retaining financial flexibility, Gene also continues to pursue further growth opportunities. We aim to have a positive and sustainable impact on the Kurdistan Region of Iraq both by growing the production of the hydrocarbons that fuel the economy and directly supporting the communities in which we operate by improving infrastructure and providing opportunities.

[Goodrich Petroleum Corp.](#)

Goodrich Petroleum Corporation is an independent exploration and production company engaged in the exploitation, development and production of natural gas and crude oil primarily in the Haynesville Shale in North Louisiana and East Texas, the Tuscaloosa Marine Shale ("TMS") in Eastern Louisiana and Southwestern Mississippi and the Eagle Ford Shale trend in South Texas. Due to the current oil price environment, we are concentrating the vast majority of our exploitation and development efforts on natural

gas on our existing leased acreage in the core of the Haynesville Shale in North Louisiana. Goodrich Petroleum Corporation is publicly traded and listed on the NYSE American under the symbol GDP.

[Granters Energy](#)

Gran Tierra Energy Inc. together with its subsidiaries (“Gran Tierra”) is a company focused on oil and gas exploration and production in Colombia and Ecuador. The Company's common shares trade on the NYSE American, the London Stock Exchange and the Toronto Stock Exchange under the ticker symbols GTE. Gran Tierra believes in creating value for all of our stakeholders through oil and gas exploration and production, capitalizing on the global operating experience of our team. We are building a record of success in Colombia and Ecuador in a transparent, safe, secure and responsible way.

[Gulfport Energy Corp.](#)

Gulfport Energy is an independent natural gas and oil company focused on the exploration and development of natural gas and oil properties in North America and is one of the largest producers of natural gas in the contiguous United States. Headquartered in Oklahoma City, Gulfport holds significant acreage positions in the Utica Shale of Eastern Ohio and the SCOOP Woodford and SCOOP Springer plays in Oklahoma. In addition, Gulfport holds an acreage position along the Louisiana Gulf Coast, has an approximately 22% equity interest in Mammoth Energy Services, Inc. (NASDAQ:TUSK) and has a position in the Alberta Oil Sands in Canada through an approximately 25% interest in Grizzly Oil Sands ULC.

[Gulf Keystone](#)

Gulf Keystone Petroleum Ltd. (LSE: GKP) is a leading independent operator and producer in the Kurdistan Region of Iraq and the operator of the Shakina oil field with current production capacity of 40,000 barrels of oil per day. Gulf Keystone was one of the first companies to see the potential of the region and in 2009 discovered the Shakina field which was declared a commercial discovery in 2012. The Company operates one of today's largest onshore developments with a production capacity of 40,000 barrels of oil per day, with plans to increase to 55,000 bop in the near term, and further beyond. The Company believes there remains significant upside potential in the Shakina field and seeks to unlock this value through its development activity.

OIL AND GAS COMPANIES- H

[Hardy Oil and Gas](#)

Hardy Oil and Gas plc is an international oil and gas exploration and production company primarily focused on India. The Group has assembled an attractive portfolio of exploration, development and production assets. Ordinary shares of Hardy trade on the Main Market of the London Stock Exchange under the trading mnemonic HDY.L. Through asset acquisition, reserve optimization and the development of strong working relationships, the Group has assembled a strategic position in the oil and gas basins on the east coast of India, and off the Saurashtra west coast near the Bombay High field.

[Hemisphere Energy Corp.](#)

Hemisphere Energy Corporation is a Canadian oil and gas company focused on increasing oil production and reserves. Hemisphere's experienced team is dedicated to creating shareholder value through executing strategic acquisitions and farm-ins that provide low-risk drilling opportunities. Hemisphere's core operations are in the Jenner and Atlee Buffalo areas in southeast Alberta.

[Hess](#)

Hess is a leading shale oil and gas producer, one of the largest producers in the Deepwater Gulf of Mexico and a key natural gas producer and supplier to Peninsular Malaysia and Thailand. The company is also engaged in exploration and appraisal activities offshore Guyana, participating in one of the industry's largest oil discoveries in the past decade, as well as the Gulf of Mexico, Suriname and Nova Scotia.

[Highpoint Resources](#)

Highpoint Resources is a Denver-based exploration and production company focused on the responsible development of oil and natural gas assets located in the Denver-Julesburg ("DJ") Basin of Colorado. Our assets are located in the Northeast Wattenberg and Hereford Fields and in rural settings that are favorable for oil development. We maintain a disciplined approach to capital investment and continually strive to maximize value through economic and low cost development, while maintaining financial and operational flexibility. We take great pride in working together in partnership with the communities in which we operate to ensure responsible energy development. This is not a commitment we take lightly as the health, safety and wellbeing of our employees and stakeholders is of highest priority and core to our business and operations.

[Holloman Energy Corp.](#)

Holloman Energy Corporation (OTCQB: HENC), a Houston-based company, is focused on oil and gas exploration and production (E&P) in Australia's Cooper/Romagna Basin. Holloman Energy has working interests in two petroleum exploration licenses ("PELs"), PEL 444 and PEL 112. PEL 444 and 112, cover a total concession area of 3,444 square kilometers (851,030 acres) in what management believes is a significant emerging oil field in the Cooper Basin.

[Houston American Energy](#)

Houston American Energy Corp (NYSE MKT: HUSA) is an oil and gas exploration and production company. Our oil and gas exploration and production activities are focused on properties in the U.S. onshore Gulf Coast Region, principally Texas and Louisiana, and on the development of concessions in the South American country of Colombia. We seek to utilize the contacts, experience, financial acumen and expertise in oil and gas geology, engineering and production provided by our management and Board of Directors to seek out and evaluate favorable drilling opportunities. We generally seek to form partnerships and joint ventures to spread the cost and risks to us of drilling while maximizing our potential returns. The company's fiscal discipline and debt-free capital structure offers investors a great deal of leverage and upside potential as revenue from new projects is realized.

OIL AND GAS COMPANIES- I

[Imperial Oil](#)

Since 1880 Imperial has consistently demonstrated unwavering high standards, pioneering Canadian spirit, innovation and leadership in the challenging energy industry. While much has changed over 130-plus years, remaining true to these fundamentals has kept us at the forefront of the race to meet the world's growing demands for energy. Our goal is to do business in an economically, environmentally and socially responsible manner while delivering superior long-term value. At Imperial, we believe that we can have reliable and affordable energy, a strong economy and a clean environment, and we're committed to making it happen.

[Insignia Energy Ltd.](#)

Insignia was incorporated in Calgary, Alberta, Canada under the Corporate Act (Alberta). Insignia's land holdings consist of 223,000 net acres of light oil and liquids-rich lands and emerging land blocks at Pouce Coupe, Valhalla and Dixon Ville. Management estimates a future drilling inventory of >1,000 horizontal well locations. Insignia is a Calgary-based oil and gas exploration development company focused entirely on development of its significant position in the Montney light oil and liquids-rich gas resource play.

[Interrail E&P](#)

Interrail Exploration and Production ASA is an independent oil and gas exploration and production company, headquartered in Oslo, Norway and with offices in Bogota, Colombia. The company is listed on the Oslo Stock Exchange with the ticker "IOX". Interrail is involved in the acquisition, exploration, development and operation of oil and natural gas properties in South America. A number of projects are being evaluated both producing fields and prospecting areas. Interior's current portfolio of assets includes two production and exploration licenses and one service contract in Colombia and three licenses in Argentina. The company aims to expand its portfolio through further acquisitions, purchase of license shares and by license applications or awarded permits and licenses mainly in South America.

[Inlay Oil](#)

Inlay Oil Corp. is a growth-oriented light oil development and production company based in Calgary, Alberta. InPlay's activity is focused on large oil in place pools with low recovery factors, low declines, and long life reserves primarily targeting the Cardio Formation in Alberta. Inlay has a strong balance sheet allowing it to weather commodity volatility and develop its extensive inventory of horizontal drilling locations. Inlay's shares trade on the Toronto Stock Exchange under the symbol IPO.

[Intl. Frontier Resources](#)

International Frontier Resources Corporation (IFR) is a Canadian publicly traded company with a demonstrated track record of advancing oil and gas projects. Through its Mexican subsidiary, Petro Frontera S.A.P.I de CV (Frontera) and strategic joint venture Tonally Energeia, it is advancing the development of petroleum and natural gas assets in Mexico. The Company also has projects in Canada and the United States, including the Northwest Territories and Montana.

[Chinook Energy](#)

Chinook Energy Inc. is a public, Calgary-based oil and gas company focused on development and exploration opportunities in Western Canada. We will leverage our experience and expertise into exploration and production projects of increasing scale and opportunity which are capable of delivering profitable, balanced growth on a per share basis.

OIL AND GAS COMPANIES- J

[McMorran Exploration Co.](#)

McMorran Exploration Co. is an independent public company engaged in the exploration, development and production of natural gas and oil in the shallow waters of the GOM Shelf and onshore in the Gulf Coast area.

[Meade Energy Corp.](#)

[Melrose Resources](#)

Melrose Resources plc is an Edinburgh-based oil and gas exploration, development and production company with interests in Egypt, Bulgaria, Romania, United States, France and Turkey. Melrose was founded in the 1990's and was listed on the Main Market of the London Stock Exchange in 1999.

[Meridian Resource Corp.](#)

[Merit Energy](#)

Merit Energy Company is a private firm specializing in direct investments in oil and gas assets. Our dedicated and proven investment strategy has been implemented since the Company was formed in 1989 and has been successful year after year. The senior management team has worked together for over a decade embracing the same investment philosophy and instilling a culture within the organization of respect and responsibility at every level of the Company. This, combined with our intensive engineering and operational focus, has enabled us to consistently create value for our investors and create a dynamic environment for our employees.

[Merrion Oil & Gas](#)

"THAT's the deal. TAKE it or LEAVE it!" demanded J. Greg Merrion in as diplomatic a fashion as he could muster. He was trying to peddle a San Juan Basin Gallup-Dakota prospect on family-owned minerals in the late 1950's. Well... they left it. But what J. Greg lacked in diplomacy, he more than made up for in moxie. So, after nine years as a petroleum engineer with the British American Oil Producing Company, he set out on his own in 1960. Risking it all, he quit his job, moved his young family from Midland, TX to Farmington, NM, then begged, borrowed, and scraped together enough money to drill the Edna 1 (a Gallup oil well named after his mother). The successful well beat back the creditors, and was the "big bang" that began the evolution from J. Greg's dream into the company that would become Merrion Oil & Gas.

[Midnight Oil Exploration](#)

[Midway Energy Ltd.](#)

Midway's experienced management team has a proven track record of aggressively growing oil and natural gas companies and creating value for shareholders. The Company is strategically focused on repeatable drilling opportunities for light oil in the Garlington and Swan Hills areas of Alberta.

[Meissen Development Corp.](#)

Meissen Development Corp ("MDC") was incorporated in Texas by Dale Meissen in March 2002 to primarily develop "proven reserves" of natural gas, oil and mineral rights in the USA by providing private investment opportunities that can provide strong income and tax benefits with moderate risk. The increasing demand for energy and unique tax benefits for domestic drilling and development, of up to 100% tax write-off, make for a timely opportunity. Income streams from producing wells and/or royalty from mineral rights are ideal for many private investors

[Moissan Oil Company](#)

[MKJ Exploration Inc.](#)

[MOL Group](#)

[Monterey Exploration](#)

On July 12, 2010 Monterey Exploration and Pengrowth Corporation announced that they had entered into an arrangement agreement pursuant to which Pengrowth would acquire all of the issued and outstanding common shares of Monterey. The transaction closed on September 15, 2010

[Murex Petroleum Corp.](#)

Murex Petroleum Corporation is engaged in the acquisition, development and operation of oil and gas properties in North America. Since incorporating in 1996, Murex has enjoyed tremendous growth and success to become the 5th largest operator in South Dakota, the 11th largest operator in North Dakota and the 25th largest operator in the Rocky Mountain Region. Murex has also been ranked the 38th largest privately held oil and gas company by the Oil & Gas Financial Journal.

[Murphy Oil Co.](#)

Murphy Oil Corporation is an international oil and gas company that conducts business through various operating subsidiaries. The Company produces oil and natural gas in the United States, Canada, the United Kingdom, Malaysia, and Republic of the Congo and conducts exploration activities worldwide. The Company owns marketing operations in the United States and the United Kingdom, including a refinery in Milford Haven, Wales.

OIL AND GAS COMPANIES- N

[National Oil Corporation](#)

The National Oil Corporation (NOC) was established on 12 November 1970 , under Law No: 24/1970, replacing the general Libyan Petroleum Corporation which established under Law No. 13 of 1968 to assume the responsibility of the oil sector operations . It was later reorganized under decision No :10/1979 by the General Secretariat of the General People's Congress, to undertake the realization of the objectives of the development plan in the areas of petroleum , supporting the national economy through increasing , developing and exploiting the oil reserves and operating and investing in those reserves , to realize optimum returns. In carrying out its activities, NOC may enter into participation agreements with other companies and corporations carrying out similar activities.

[Nautical Petroleum](#)

Nautical Petroleum plc intends to become a significant producer of oil, initially in the United Kingdom Continental Shelf (UKCS) and in Europe. Our aim is to secure further oil discoveries in the UKCS and EU through acquisitions, farming and licensing rounds. We aim to achieve near term production on current assets and enhance crude value and mitigate risk through our relationships. We will acquire oil exploration blocks with low to moderate commitments and farmout to mitigate portfolio risk, with the overall aim of enhancing shareholder value.

[NCL Natural Resources](#)

[Nelson Energy](#)

Nelson Energy is a privately held Minneapolis-based company specializing in the development of the hydroelectric potential at existing dams and closed system pumped storage. Nelson Energy is managed by Douglas A. Spaulding, P.E. and Robert P. Larson.

[Newfield Exploration Co.](#)

The company's geographical operation area spans the following governorates : Kirkuk , Nineveh , Erbil , Baghdad , Diale and part of Hila and Cut .The company carries out the duties of producing crude oil and natural gas from oil and gas Fields situated in the northern half of Iraq . The company contains more than fifty installations comprising pump stations, process units , oil tank fields ,degassing stations , gas compressor stations , water treatments plants, electric generation stations , and a large number of oil wells which are connected with a network of flow lines and pipelines dispersed throughout the company's area of operation. N.O.C. supplies crude oil of different types to Iraqi refineries and associated gas to North Gas Company units and to electric generation stations as well as for export through a network of pipeline system toward north and west of the country for export from terminals in Turkey and Syria

[North Peace Energy Corp.](#)

[Northern Petroleum](#)

Northern Petroleum Plc is an EU oil company that acquires low entry cost exploration, production and development assets and is committed to adding high value to shareholders from production and asset sales.

[Novatek](#)

We are Russia's largest independent natural gas producer and the second-largest natural gas producer in Russia after Gazprom, in each case according to the CDU-TEK for 2010. We are principally engaged in the exploration, production, processing and marketing of natural gas and liquid hydrocarbons and have over 15 years of operational experience in the Russian oil and natural gas sector. In 2010, we accounted for approximately 6% of the natural gas produced in Russia, providing approximately 10% of total natural gas deliveries through the UGSS to the domestic market, according to the CDU-TEK

[Nonoil A/S](#)

Greenland has a reputation of being covered by ice and surrounded by icebergs and sea ice with Polar Bears walking the streets of the capital Nuuk. Apart from the fact, that the interior of Greenland is covered by ice, this is all fiction. Offshore the southwest coast of Greenland, in the southern Davis Strait and the northeastern Labrador Sea, icebergs are infrequent, sea ice is not present at all, and offshore operations are possible year-round. In the Northwest Greenland region sea ice forms annually in the Baffin Bay area and progresses southwards to the the northern Davis Strait area. This sea ice retreats during the summer and leaves room for operational windows until late autumn where sea ice formation starts anew.

OIL AND GAS COMPANIES- O

[Occidental Petroleum Corp.](#)

Occidental Petroleum Corporation (NYSE:OXY) is an international oil and gas exploration and production company — the fourth-largest in the U.S., based on market capitalization — and our Ockham subsidiary is a major North American chemical manufacturer.

OIL AND GAS COMPANIES- Q

[Qatar Petroleum Company](#)

[Quicksilver Resources](#)

Our company is widely recognized as a leader in the development and production of unconventional resources, including coal bed methane, shale gas, and tight sand gas in North America.

OIL AND GAS COMPANIES- R

[Ram Energy Resources](#)

We are an independent oil and natural gas company engaged in the acquisition, development, exploitation, exploration and production of oil and natural gas properties, primarily in Texas, Louisiana and Oklahoma. Our producing properties are located in highly prolific basins with long histories of oil and natural gas operations. We have been active in our core producing areas of Texas, Oklahoma and Louisiana since our inception in 1987 and have grown through a balanced strategy of acquisitions, development and exploratory drilling. We have completed over 24 acquisitions of producing oil and natural gas properties and related assets for an aggregate purchase price in excess of \$700.0 million. On November 29, 2007, we acquired Ascent Energy in a cash and stock transaction valued at \$303.8 million. Through December 31, 2010, we have drilled or participated in the drilling of over 846 oil and natural gas wells, approximately 94% of which were successfully completed and produced hydrocarbons in commercial quantities. Our management team has extensive technical and operating expertise in all areas of our geographic focus.

[Range Resources](#)

Range Resources Limited (“Range” or the “Company”) is an oil and gas exploration, development and production company, which is dual-listed on the ASX (RRS) and AIM (RRL). Its principal activities are directed towards finding and delineating hydrocarbons with interests in Puntland, Somalia; the Republic of Georgia, onshore Texas, USA and Trinidad.

[Repsol YPF](#)

[Rex Energy Corp.](#)

Rex Energy Corporation is an independent energy company engaged in the acquisition, production, exploration and development of oil and gas, with properties concentrated in the Appalachian Region, Illinois Region and Rockies Region. We pursue a balanced growth strategy of exploiting our sizeable inventory of lower risk developmental drilling locations, pursuing our higher potential exploration drilling prospects and actively seeking to acquire complementary oil and natural gas properties. Our success is the result of the Company's seasoned and diversified management team comprised of expert personnel, using the latest technologies, and sound business practices.

[Rio Petroleum](#)

OIL AND GAS COMPANIES- S

[Sabine Oil & Gas](#)

Sabine Oil & Gas is an independent oil and natural gas company engaged in the acquisition, development, exploitation and exploration of oil and natural gas properties onshore in the United States.

[San Leon Energy](#)

San Leon Energy plc is dedicated to maximizing value in energy exploration and production. We have a balanced portfolio of conventional and shale assets across Europe and North Africa.

[Sandridge Energy](#)

Sandridge Energy, Inc. is an oil exploration and production company headquartered in Oklahoma City, Oklahoma. Sandridge's drilling activities are focused on its oil properties in the Permian Basin and Mid-Continent. The Company also maintains production in the regions of West Texas, the Gulf Coast and the Gulf of Mexico. In addition, Lariat Services, Inc., a wholly owned subsidiary of Sandridge, owns and operates a drilling rig and related oil field services business.

[Santos, Ltd.](#)

An Australian energy pioneer since 1954, Santos is one of the country's leading gas producers, supplying Australian and Asian customers. Santos has been providing Australia with natural gas from the remote outback for more than 40 years. The company today is the largest producer of natural gas to the Australian domestic market, supplying 16% of the nation's gas needs.

[Saudi Aramco](#)

The world's need for energy is growing, but so too is our ability to meet that demand. Our teams have been discovering new and better ways of delivering petroleum energy since 1933. Find out more about our leadership, our history and the people who make us the world's leading integrated petroleum enterprise.

[Saxes Petroleum](#)

[Saxon Oil Company](#)

Saxon Oil, a Tier One Texas-based Canadian company, is an independent oil and gas company engaged in the acquisition, development and production of oil and natural gas reserves. Saxon seeks to deliver strong shareholder returns through an effective exploration and development program that incorporates sound

business practices with the latest oil field technologies. The goal is to steadily increase proven reserves of oil and natural gas – which, in turn, will lead to enhanced cash flows and earnings per share.

[Sea Dragon Energy](#)

Sea Dragon Energy (SDX-TSX.V) Sea Dragon is primarily focused on North Africa and Sub-Saharan Africa. Currently our activities are concentrated in Egypt, where we have interests in two large concessions with short- and long-term potential. Our strategy also calls for gaining entry into other countries that offer significant potential and opportunities that would enhance the Company's growth within a reasonable timeframe.

[Second Wave](#)

Second Wave Petroleum is a growth-oriented junior oil and gas company focused on the production of crude oil and natural gas in Western Canada. Second Wave is defined by its focus on oil resource plays, specifically at Judy Creek, Alberta and its unparalleled drilling inventory. The company is well-capitalized and is run by an experienced team of oil and gas industry professionals. Second Wave trades on the TSX under the symbol "SCS".

[Seneca Resources](#)

Seneca Resources Corporation, the exploration and production segment of National Fuel Gas Company, headquartered in Houston, Texas, explores for, develops and purchases natural gas and oil reserves in the Appalachian Region including the Marcellus Shale, and in California.

[Sentinel Rock Oil](#)

[Senex Energy](#)

[Shamar an Petroleum](#)

Shamar an Petroleum Corp. is a Kurdistan focused oil development and exploration vehicle. Its initial four projects in the region are the Pukwana development/appraisal block, the Rabat and K42 exploration blocks as well as the newly acquired At rush block. These projects are nearby and on trend with existing fields and recent discoveries.

Kurdistan lies within the northern extension of the Zagros Folded Belt. The area is highly underexplored and is currently undergoing a significant exploration and development campaign by over 40 mid to large size international oil companies.

[Sinopec](#)

[Slaw son Exploration](#)

Slaw son Exploration Company, Inc. is a privately held oil and gas exploration company founded by Donald C. Slaw son in 1957. Since its inception, SECI has drilled over 3500 wells in 10 states employing advanced techniques like 2D Seis/Strat in the early 80's, Horizontal drilling in the late 80's, large scale 3D AVO in California gas basins in the 90's and record-holding staged fracs for hydrocarbon harvesting in the oil resource plays throughout the Rockies

[Nonangel Sonatrach](#)

Sonagraph Est la plus important compagnie d'hydrocarbures end Algeria et end Afrique. Elle intervein dans exploration, la production, le transport par canalizations, la transformation et la commercialization des hydnocarpates et de leers derives.

[South Oil Company](#) - Iraq

South oil company one of the major fundamental formations of Iraqi national oil company (INOC) ,it's the first nucleus and the basic of national direct investment projects in the seventies ,where the SOC was subsidiary to national company .Events and activities have escalated steadily and rapidly rising since the beginning of the seventies where investment and development stages of the north Rumaila field were completed, in three stages lead to rates production (42)million tons per year ,coincided with the expansion of works in all fields ,the expansion began with drilling works ,building and expanding production facilities and implementing investment projects associated with natural gas field in north and south Rumaila ,also developing new fields in Lohaus , Saba , Nuraan Ben Ummar and oil fields Inmarsat lay out exporting pipe line , expanding export facilities , infrastructure sites for the company . Coupled with provisional of service, housing and health care to company's staff, and achieve ambitious plans in fields of rehabilitation, development and creating institutes and centers for training, technical and administrative development. During the mid – seventies decree to nationalize the Basra oil company (BPC),also activities of Era company in Mayson attachment to the oil operation and establishment to the national oil company ,the SOC classified as first company in Iraq and the eighth in production rating for global oil companies . The company activities were covered an area of geographical limits of their effectiveness (180)the/m² stretching from the Arabic Gulf to Hadeeth .During the seventies period the maximum rates production from the south fields (2.75) million barrels /day ,and the plans were designed to reach the limits of (4) million barrels /day.

[Statoil](#)

[Stealth Ventures](#)

Stealth Ventures Ltd. is a Canadian oil & gas company with its head office in Calgary, Alberta and its shares are listed for trading on the TSX Venture exchange under the symbol SLV. Stealth is focused on the exploration for, and the acquisition, development and production of, conventional and unconventional hydrocarbons, with a more detailed focus on the unconventional geological plays for the production of hydrocarbons derived primarily from shale, Coalbed Methane (CBM) and tight sand reservoirs

[Stone Energy Corp.](#)

The MISSION of Stone Energy Corporation is to provide our shareholders with exceptional rates of return by helping to meet the world's growing energy demand through the exploration, development and production of oil and natural gas reserves. The VISION of Stone Energy is to appropriately manage the risks inherent in the oil and gas industry while growing net asset value by focusing in margin advantaged, world class hydrocarbon basins. We also aspire to maintain top quartile share price performance relative to our peer group.

[Storm Resources](#)

Storm Resources Ltd. is a new junior exploration and production company led by Brian Lavergne as President and CEO, Don McLean as CFO and Rob Tiberius as COO, along with other members of the Storm senior management team. Storm Resources Ltd. commenced operations on August 17, 2010 after certain assets were transferred to Storm as part of the Plan of Arrangement involving the sale of Storm Exploration Inc. to ARC Energy Trust. The primary asset transferred to the new entity was undeveloped lands totaling approximately 117,200 net acres in the Horn River Basin ("HRB"), Unbeach and Cabin/Katcho/Junior areas in north eastern British Columbia, plus undeveloped land in the Red Earth area of Alberta. In addition, Storm Resources Ltd. retained share ownership positions in Storm Gas Resource Corp., Bellemont Exploration Ltd., Bridge Energy Norge ASA and Chinook Energy Inc.

[Stream Oil & Gas](#)

Stream Oil & Gas Ltd ("Stream") is a Canadian based emerging oil & gas production, development, and exploration company.

Stream is currently focused on the re-activation and re-development of its currently producing Albanian projects: three on-shore heavy oil fields, Carambola, All-Heal and Gorisht-Kocul and one onshore producing gas field, Delvin. Under petroleum agreements with Alb petrol SH.A, the Albanian state exploration and production company and 25-year license agreements with Albania's National Petroleum Agency (AKBN), Stream has the right to take over all wells in the four fields, and is entitled to a share of current baseline production and 100% of all incremental production. Stream, led by a technically experienced management team, is implementing modern and enhanced recovery techniques for carbonate reservoirs.

[Suncor Energy](#)

[Surgutneftegaz](#)

Oil and gas producer Surgutneftegas is one of the largest companies in the Russian oil sector. It accounts for almost 13% of the country's crude output and 25% of gas produced by domestic oil companies. Over many years, the company has been leading the industry in terms of exploratory and development drilling, as well as the number of production wells brought on stream. The company was the first in Russia to develop the complete cycle of gas production and processing, gas-based power generation, and output of finished products and petrochemical feedstock. Fifty-nine divisions of the company are involved in the whole range of prospecting and reservoir management operations, construction of facilities and pipelines, environmental safety, and process automation. Surgutneftegas' crucial competitive advantage lies in advanced petroleum production technology successfully applied by its own service subdivisions. Oil is supplied to Russian refineries and exported to CIS and Western Europe.

[Swift Energy Corp.](#)

Our founder, the late A. Earl Swift, believed that the mission and culture of an organization defined its reason for being. During 2007 and 2008, Swift Energy Company formalized and elaborated on its operating philosophy using a participatory process consistent with the company's founding principles.

At the end of this process, with input from our employees, we developed the updated vision and mission statements.

OIL AND GAS COMPANIES- T

[Talisman Energy](#)

Talisman Energy Inc. is a global, diversified, upstream oil and gas company, headquartered in Canada. Talisman's three main operating areas are North America, the North Sea and Southeast Asia. The Company also has a portfolio of international exploration opportunities. Talisman is committed to conducting business safely, in a socially and environmentally responsible manner, and is included in the Dow Jones Sustainability (North America) Index. Talisman is listed on the Toronto and New York Stock Exchanges under the symbol TLM.

[Tammany Oil & Gas](#)

Tammany Oil & Gas LLC is a Houston based firm that began operation in 2002. Acquiring mature oil and gas properties for the purpose of enhancing the overall asset value is the company's main focus. Tammany operates in Louisiana and Texas with holdings offshore in Texas and Louisiana OCS waters. In addition to broad-based, in-house expertise, Tammany has affiliations that provide access to cutting edge technology in producing, drilling and completion methodology.

[Taylor Hill Exploration Ltd.](#)

Taylor Hill Exploration Ltd. is a private oil and gas exploration and development company with a large inventory of plays and oil and gas interests in Alberta, Canada. This site shows a number of oil and gas business opportunities and geologic exploration projects owned by Taylor Hill. The company is incorporated in Alberta, Canada and has an office located south of Calgary, Alberta and one in downtown Calgary. The company explores for Canada's oil and gas resources in the Western Canadian sedimentary basin. Taylor Hill has an experienced management, which works with equally experienced oil and gas consultants who, in many cases, participate with Taylor Hill in oil and gas exploration and development activity.

[Terra Energy Corp.](#)

Terra Energy Corp. is a junior exploration and production company engaged in the exploration for, and development and production of, natural gas and oil in Western Canada. Our operations are concentrated primarily in northeastern British Columbia and the Peace River Arch region of Alberta

[Tethys Petroleum](#)

[TNK-BP](#)

[Toe Energy](#)

Toe Oil and Toe Energy are companies engaged in exploration, exploitation, and acquisition of oil and gas properties located in South Louisiana. Toe has originated and marketed all of the oil and gas prospects it has

been involved in since the company's inception. It sells fractional working interests in its oil and gas prospects to listed and unlisted public corporations, drilling funds, and individuals. The company is responsible for the drilling, completion, and operation of most of the prospects generated; however, from time to time it has been a non-operator on a few of its prospects.

[Total](#)

[TRAFINA Energy Ltd.](#)

Traian is a junior explorer and producer with significant heavy oil prospects in the McMullen area of northeast Alberta. The Company also has production and prospects in Pembina, Alberta and Rangeview /Divide in southwest Saskatchewan

[Trans Pacific Oil](#)

The history of oil exploration and production in Kansas goes back almost 100 years and that history is still being written today. Kansas ranks in the top 10 of oil and gas producing states, and it remains a fertile area for discovery of new petroleum resources. Kansas oil exploration and production has been dominated throughout its history by independent oil companies. Trans Pacific Oil Corporation has been a part of Kansas industry since 1980. As a small independent company, Trans Pacific Oil Corporation can take advantage of the conditions that make the Kansas oil business attractive for investment.

[Transatlantic Petroleum](#)

Transatlantic Petroleum Ltd. is a vertically integrated, international energy company engaged in the acquisition, development, exploration, and production of crude oil and natural gas. The Company holds interests in developed and undeveloped oil and gas properties in Turkey, Morocco, Bulgaria and Romania. The Company owns its own drilling rigs and oilfield service equipment, which it uses to develop its properties in Turkey and Morocco. In addition, the Company's drilling services business provides oilfield services and drilling services to third parties in Turkey and Iraq.

[Trans Globe Energy](#)

Trans Globe's combined properties contain a multi-year prospect inventory in prolific international hydrocarbon basins, focused in the Middle East /North Africa Region. Trans Globe became an international operator through its farm-in at Nuqta in the Arab Republic of Egypt ("Egypt") in July 2004, attaining an objective the Company's management team had focused on for a number of years. Additional acquisitions in Egypt, notably in the West Gharib area, followed in 2007 and 2008. Trans Globe's team quickly demonstrated its significant technical and operational skills, applying technology and capital to the low-risk, development-

oriented fields and achieving production increases in short order. In January 2010, Trans Globe farmed in on a 50% working interest in the East Ghazala Concession in the Western Desert of Egypt. In March 2011, Trans Globe announced the signing of a Sale and Purchase Agreement to acquire a 100% working interest in the West Bakr Concession agreement in Egypt from The Egyptian Petroleum Development Co. Ltd. (of Japan), subject to customary due diligence, closing conditions and the approval of the Egyptian Government.

[Triangle Petroleum](#)

Triangle's strategy is dually focused on the acquisition and development of acreage in the North Dakota Bakken Shale oil play and the development and exploitation of its existing asset base in the Maritimes Basin of Nova Scotia, where it currently holds an 87% interest in approximately 474,000 gross acres. In North Dakota, the company is actively seeking to build on its current 81,000 net acreage position by acquiring additional leasehold interests throughout the Williston Basin. Technology advancements in drilling and completion techniques have unlocked the significant resource potential of the Bakken Shale, expanded the scope of the play, and increased the potential reserve additions and production profile of successful wells. Management is focused on capturing this resource for the benefit of Triangle shareholders at an attractive cost.

[Tullow Oil](#)

[Tuscany Energy](#)

Tuscany is focused on growth through oil exploration and development. With its extensive prospect inventory, developed over the past two years, Tuscany believes it can achieve significant growth by continuing to develop its Dina oil properties at Eve sham and Macklin, and adjacent Lloydminster heavy oil projects from available working capital and cashflows.

OIL AND GAS COMPANIES- V

[Ultra-Petroleum](#)

Ultra-Petroleum is a leading independent energy company actively engaged in the exploration and production of oil and natural gas. We are uniquely focused on delivering profitable growth and consistent, sustainable financial performance.

[Valdo Energy](#)

VAALCO employs nearly one hundred people in total on two continents. About half of this number is located in Gabon supporting our exploration and production activities. In Angola, VAALCO employs approximately

ten people taking care of the exploration and administrative matters in that country. The Houston headquarters employs approximately thirty people of whom nearly twenty are highly experienced technical staff with disciplines in production engineering, reservoir engineering, facilities engineering, civil and electrical engineering, geology, geophysics, and drilling.

[Valiant Petroleum](#)

[Vanguard Natural Resources](#)

We are a publicly traded limited liability company focused on the acquisition and development of mature, long-lived oil and natural gas properties. Our primary business objective is to generate stable cash flows allowing us to make monthly cash distributions to our unitholders, and over time to increase our monthly cash distributions. Our properties are located in the Permian Basin in West Texas and New Mexico, the Big Horn Basin in Wyoming and Montana, the Arkoma Basin in Arkansas and Oklahoma, the Williston Basin in North Dakota and Montana, Mississippi, and South Texas.

[Sargon Energy](#)

Our core competency is oil exploitation, which we define as the application of technology to increase the recovery of undrained oil in existing reservoirs. It is a technically complex business and each oil reservoir is treated differently depending on the interrelationships of the reservoir rock, fluids, pressures, wells and surface facilities. We work in all three phases of oil reservoir exploitation: primary, secondary and, more recently, tertiary recovery projects.

[Zone Energy LLC](#)

Our objective is to seek capital appreciation and income generation principally through investments in various assets related to the oil and gas industry. Zone Energy acquires assets that consist primarily of producing and non-producing crude oil and gas reserves located in 58 target basins. We focus on properties with long-lived reserves and stable production profiles.
